

Partners

We are proud to work with the following companies who offer specialist services that can provide additional support and expertise to our projects when required.

www.microsoft.com

PDMS are proud to be Microsoft Gold partners, acknowledging our superior levels of expertise and experience in working with Microsoft products and technologies. Many of our staff have passed Microsoft's demanding examinations to become Microsoft Certified Professionals (MCP), Microsoft Certified Application Developers (MCAD) and Microsoft Certified Solutions Developers (MCSD). By achieving Gold Status, PDMS have in-depth access to a wealth of exclusive Microsoft benefits including high level technical resources and support and early access to new products and services.

www.oracle.com

Oracle is one of the leading vendors of high-end database and e-business platforms, and as such, PDMS makes extensive use of a wide range of Oracle products in a variety of environments. Our status as members of the Oracle Partner Programme ensures that we are kept advised and supported by Oracle in developing solutions based on their platforms. We have developed Oracle-based solutions which run in Microsoft and UNIX environments

<http://www.sun.com/index.xml>

Sun's Solaris platform provides an excellent basis for enterprise-scale systems, and our status as members of the Sun Developer Connection acknowledges our commitment to supporting this platform. When developing solutions for this platform, we would typically use J2EE and C++, and our SDC membership ensures that our development teams have access to resources and support from Sun whenever required.
