

Forthcoming events

ACPO-APA International Policing Exhibition and Summer Conference, 25th - 26th June Liverpool Arena & Convention Centre

This event is the biggest and most influential policing event of the year and both PDMS Ltd and the PNLD (Police National Legal Database) team will be exhibiting on a joint stand. The exhibition promises to be one of the busiest police events in 2008.

The 2008 International Policing Exhibition is for police of all ranks and all professionals working with the police, police authorities and policing organisations including prison, customs, immigration services and criminal justice organisations.

This is the UK's leading showcase of cutting edge technologies, police equipment and services and an ideal forum for networking, information exchange and knowledge building.

The ACPO-APA Summer Conference will take place alongside the International Policing Exhibition

Come and find out more about PDMS in the IT Zone and talk to us about how we can help your Police force with your software development projects.

Please visit us at Stand B8.
